

DON'T CHANCE FRAUD

Exclusive insight into the public's susceptibility to insurance fraud and landing on the Insurance Fraud Register (IFR), amid the cost-of-living crisis

1 in 5
18-24
year olds

would "likely" commit an act of insurance fraud if struggling financially

1 in 10
people

say they would consider insurance fraud if struggling financially

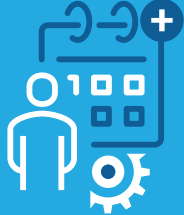

1 in 2 people
between
18-54

feel financially desperate due to the cost-of-living crisis

Millennials represent **about half** of people added to the IFR

100 people are added to the IFR each week

TOP 5 WAYS PEOPLE GET ON THE IFR

1

Creating fake no-claims-discount (NCD) documentation

2

Fronting on car insurance

3

Exaggerating damage or injury on a claim

4

Claiming for lost items that are still in possession

5

Orchestrating a 'Crash for Cash' scam

In July 2022, IFB commissioned YouGov to research public susceptibility of fraud with 2,175 adults across the UK. Insurance Fraud Register data is IFB sourced, with findings also carried out in July 2022.
